

pleasure : solo or shared

# Wish by We-Vibe™

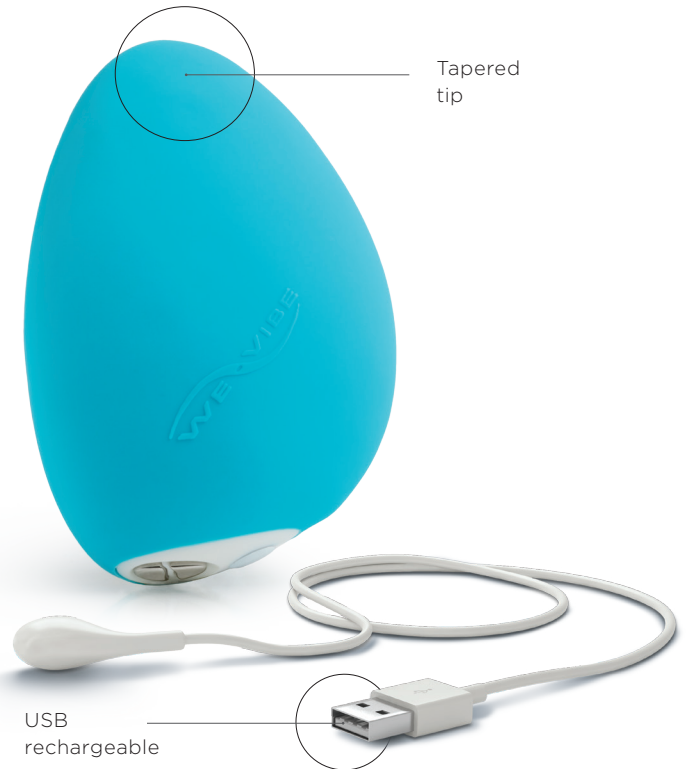

Plush and powerful and all about you.

**Pleasure you'll want to sink into.** The soft exterior and rumbly vibrations of Wish by We-Vibe stimulate the vulva with deep sensations. Similar to a wand, Wish offers ultra powerful, broad stimulation. Pushing into the product stimulates both the external and internal clitoral nerves. Wish can be enjoyed all over the body, with the tapered tip used for focused vibration.

**Deep satisfaction awaits you.** Unlike anything you've felt before, Wish offers our exclusive PowerPulse™ technology. It's a new vibration sensation that feels like waves of pleasure.

Wish is rechargeable, body-safe, waterproof, and has 10 preset vibration modes to choose from. Wish charges via any USB port with a magnetic charging cable that simply snaps into place. A low-power indicator lets you know when it's time to recharge

**Get more features with the app.** With We-Connect™ you can create your own custom vibes and control Wish from right next to you, from the next room—even from the next continent. Share control with your partner and enjoy some long distance excitement that makes it feel like you're together no matter where life takes you.
