

The First G-Spot Massager That Surges and Plunges Within You

Surrender to wave upon wave of intense sensations, with the world's first G-Spot stimulator that truly massages you internally. With its voluptuous form and beckoning 'come-hither' finger-like motion, MONA Wave™ not only takes you to the limits of pleasure, but pushes you over the edge to a whole new world. All of this in a sleek, 100% silicone design that is both rechargeable and waterproof, with 10 vibration settings that will leave you gasping for more.

HOW TO USE

- Push the middle button to turn MONA Wave™ on, and press the v or ^ button to cycle through the ten stimulation modes.
- Press + to increase vibration strength and - to decrease.
- MONA Wave™ can be used in the classic G-Spot position with the curved end facing upwards to massage internally. It can also be used to explore stimulation of different parts of the vaginal wall by simply rotating MONA Wave™ by the handle.
- To lock the MONA Wave™ simply hold + and - buttons together until backlights turn off. To re-activate and turn on, hold + and - together until backlights turn on.

SALES TIPS

- Beautiful contoured shape with pointed tip, enlarged bulb and slender body, perfect for G-Spot exploration.
- Explore sensations beyond the G-Spot by twisting MONA Wave™ to massage the sides and back of vaginal walls.
- The MONA Wave™ has been programmed with 10 stimulation varieties that take full advantage of the waving movements and massaging vibrations for intimate pleasure.
- Both the body and handle are 100% made of smooth and silk-touch silicone.
- MONA Wave™ is 100% waterproof so it can be submerged in water completely for both pleasure and cleaning.
